Passionate Software Developer with 2+ Years of Experience always looking to learn something more in an environment which encourages to learn and develop.
Fast learner and very open to learning new Skills, Programming Languages and Frameworks.

## Employment history

**Software Engineer, Missisystems Business Solutions**
Noida
Aug, 2017 – Present

Started my professional career here around 2 years ago.
Contributions:

- **ERP Development and Enhancement:** Have been an integral part in development, enhancements and support of various modules of an ERP.
- **Integration of various APIs:** E-Commerce APIs, Shipment Company APIs (UPS, FedEx) and more. Also have experience with integration of GraphQL based API.
- **Data Migration:** Migrated data of various newly enrolled customers into our ERP Database from their older ERP Database.
- **Websocket based Chat Server and Client Development:** Developed a Chat server using Websocket on a Node JS server. Setup the Websocket client to complete the Chat functionality in our ERP.
- **Reports Development (Jasper Reports):** Developed all the reports needed in the ERP using Jaspersoft Studio.
- **SQL Query Development:** Being very fluent in SQL, i am almost always tasked to write queries which are Complex to help my Colleagues.
- **Performance optimizations:** Optimizing SQL Queries and Codes is one of my regularly assigned tasks as a Developer.

## Education

**Bachelor in Computer Engineering, Jamia Millia Islamia, New Delhi**
Dec 2016 - Present
Regular Evening Classes from 6 PM to 9 PM

**Diploma in Computer Engineering, Jamia Millia Islamia, New Delhi**
July 2013 – June 2016

**High School, Bloom Public Sr. Secondary School, Ghaziabad**

## Other Projects

### Medical Tourism Web App
Created a Medical Tourism Web App as a Freelancer with a friend.
The app was for Hospitals and Facilitators to keep track record by recording ratings from their patients.

### Order Processing System
Created an Order processing system with Invoicing and Payment.
